PUERTO BANUS

Where

More than 300 sunny days per year and over 60 golf courses in the area add up to the restaurants, hotels, casinos, marinas, luxury shopping outlets, international schools and high standard hospitals.

Marbella has been a major foreigner destination for the last 60 years, with an everyday growing international community.

What

In the middle of Marbella's Golf Valley, overlooking the Mediterranean and its most famous mountain, we present you the newest housing project; relax and enjoy while we tell you all about it:

the Project

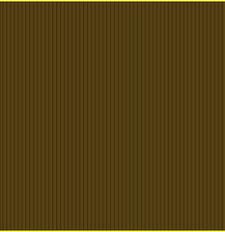

We have developed a compound of 9 luxury townhouses, in 3 groups of 3, with private pools and green spaces, in walking distance from many golf courses at Nueva Andalucía, Marbella.

Noken Brassware

ECO Brassware (60% water saving). Noken cuts down water and energy waste in faucets. Its brassware has incorporated ECO-STAR technology, which allows water to heat only when it is truly necessary, as well as flow control technology, which limits water consumption to a maximum of 5 litres per minute.

ECO Aerators (up to 80% water saving) simulate the right atmosphere for air and water to coexist in order to save water and energy as well as to reduce CO2 emissions.

Technology has transformed how we interact with one another, with objects and spaces.

The iO Simon system allows you to create connected spaces. Link all the Simon 100 devices in your home (switches, sockets, blinds...), to your smartphone, and create a world of unique experiences adapted to your lifestyle.

Housing where comfort and flexible functions that connect and control multimedia devices, lighting, temperature, blinds and natural light, harmoniously and elegantly fit into the interior design.

A universe compatible with WiFi technology, voice assistants, Simon 100 interfaces or our App, making your house a smart home.

Domotics by Simon100 iO

dica® kitchens are manufactured entirely in Spain using premium materials: the European most innovative hardware, laminate surfaces with the latest laser technology for the edges, preselected woods for every project and lacquers and varnishes that meet the strictest quality controls. The installation is made by specialized assemblers who know in depth all our products, achieving a perfect finish in each project.

Kitchen by Dica + Neff appliances

Cooking inspires people, and people inspire us. This is the basic principle behind everything that happens at NEFF.

Let nothing get in the way of your cooking ideas, a NEFF kitchen is equipped for every dish.

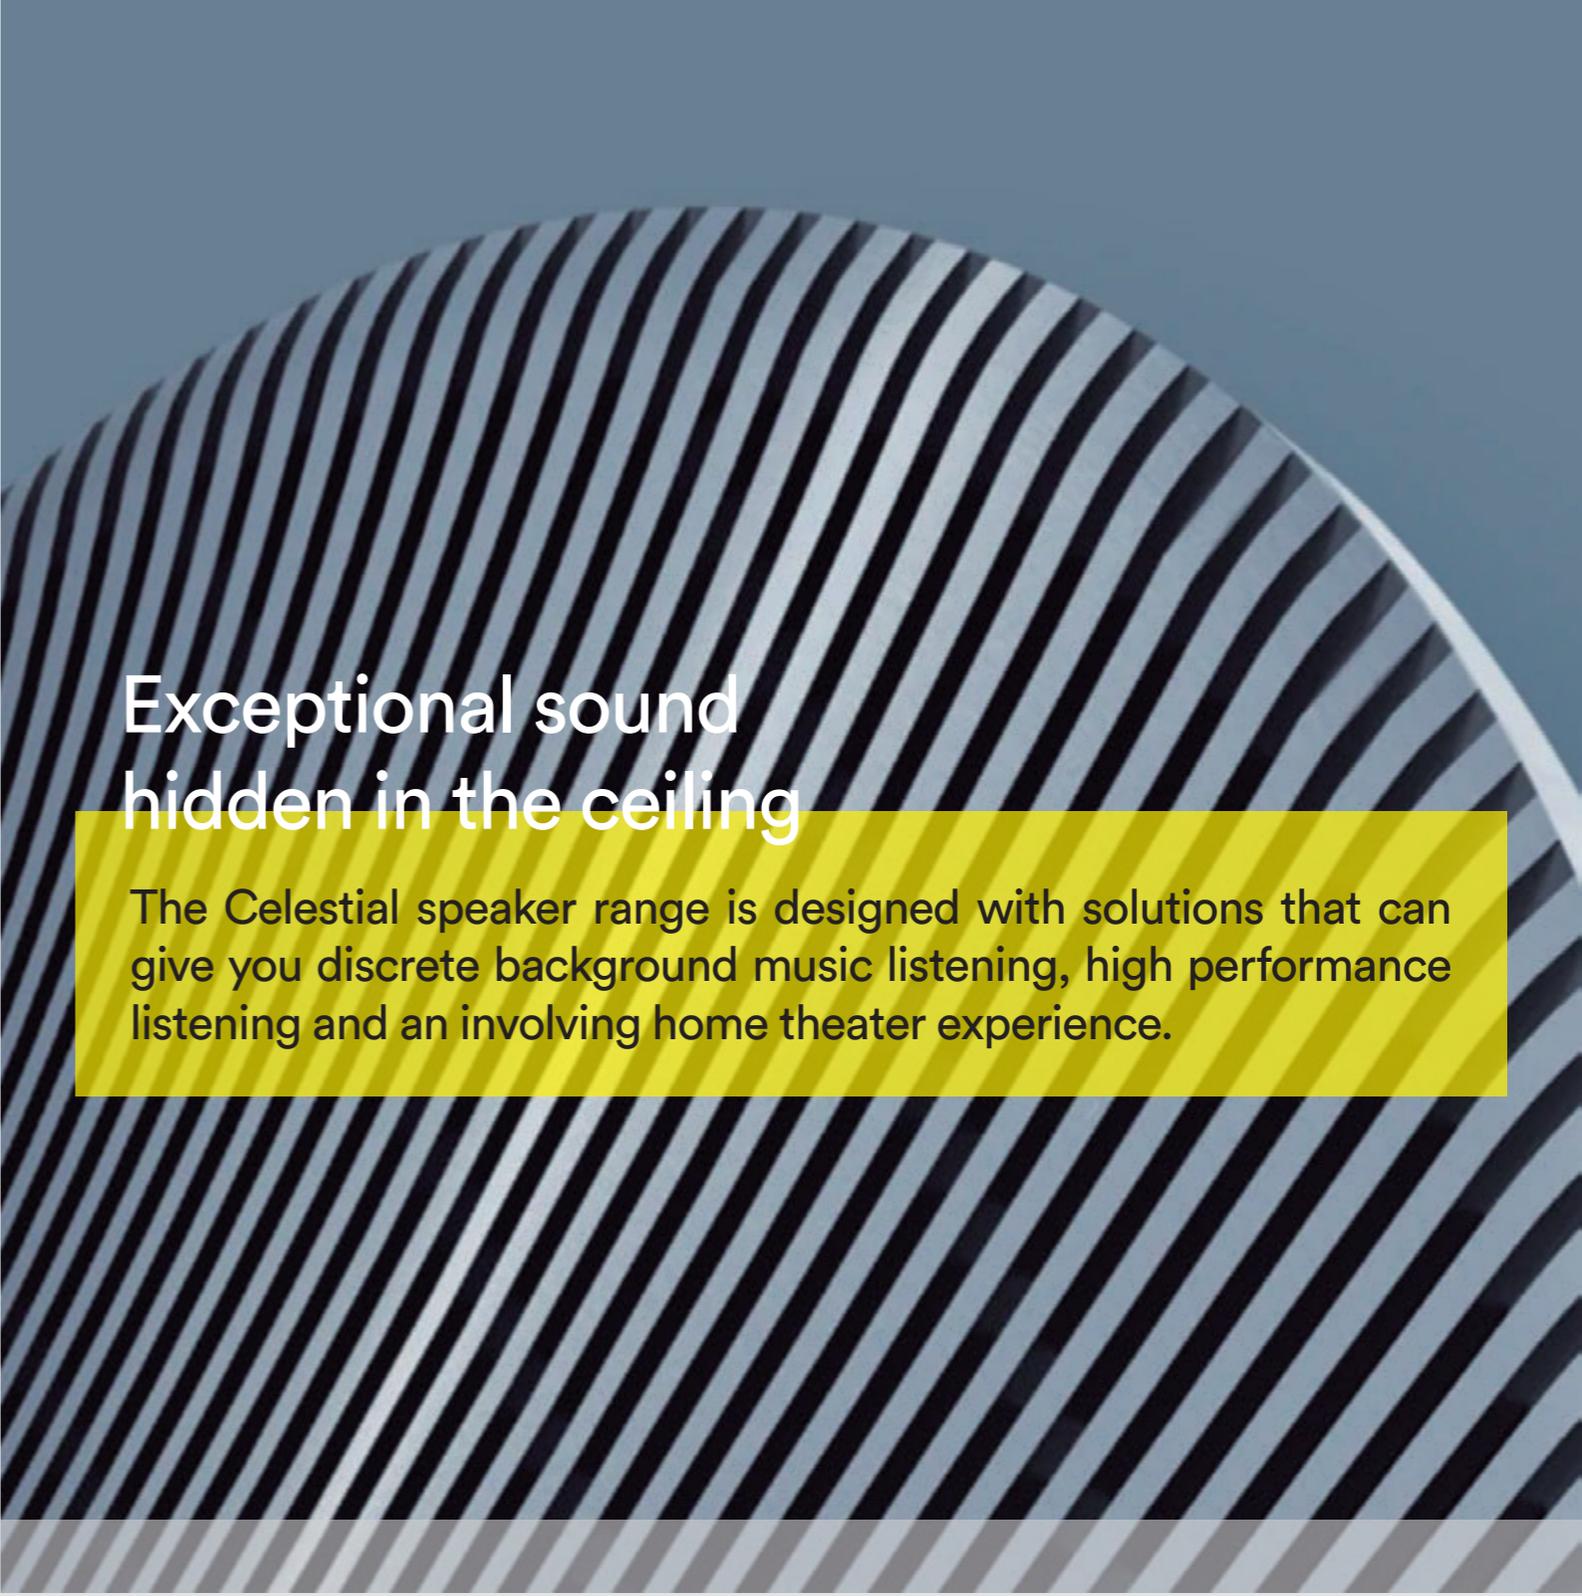

B&O
BANG & OLUFSEN

The Celestial in-ceiling speakers combine great sound performance with flexibility and simple installation and the ability to match even the most progressive interior design.

Sound by Bang & Olufsen

**Exceptional sound
hidden in the ceiling**

The Celestial speaker range is designed with solutions that can give you discrete background music listening, high performance listening and an involving home theater experience.
